MODULAR DATA CENTER
MICRO MDC

SILENT-AIRE®

	OVERVIEW	28' x 15.6' x 9.8' (8.5m x 3.5m x 3m) Up to 6 racks 60kW (average 10kW/rack) Total IT Load
	COOLING	DX (Direct Expansion) Cooling Technology
	POWER	Single and Three Phase power input Rack mounted UPS 10 minutes Battery Backup
	SECURITY	Fire Detection Fire Supression 60 mins Fire Rating
	MONITORING	Distech controller - Measures and reports: Temperature, Cooling Power & Fire systems.
	STANDARDS	Etl Certified As Equipment: 3rd Party Verified By Intertek UI 2755 (USA) CSA: 22.2 Section 136 (Canada)

DESIGNED FOR ANY LOCATION

The Silent-Aire MDC Micro has been designed and engineered to address the increasing demand for storage and computation of data, closer to where it is being created.

Driven by new and evolving technologies the demand for data centers are growing exponentially, across all markets, and the MDC VAULT Micro fits perfectly into the EDGE and Micro-EDGE segments.

The MDC VAULT Micro is built in Silent-Aire's advanced manufacturing facilities, using high quality standards and is fully tested in factory. MDC Vault Micro can be transported and deployed anywhere globally, fast!

The Micro is a self-contained data center which contains all critical components of a larger MDC, such as cooling, power, battery backup, security, fire detection and fire suppression.
